

PRESS RELEASE

RF-iT Solutions GmbH is now Enso Detego GmbH

(Graz, 2012-01-11) The company **RF-iT Solutions**, which was acquired by Enso Holding Ltd. in October 2011, is now operating as **Enso Detego GmbH**. The rebranding completes the successful integration of a leading provider of RFID solutions.

RF-iT Solutions is now the Enso Detego GmbH. The new company name is not only a sign for a new ownership structure, but especially for the significance of the brand **detego®**. Under the brand name **detego®** outstanding RFID solutions already have been successfully implemented in projects in the past.

"A new name stands for progress. Our goal is to go on with proven solutions while introducing innovations", Alexander Gauby (CEO) is convinced. "With our highly motivated team, we are consistently working on the development of **detego®** RFID solution modules to generate significant value for our customers and partners in the sectors of fashion, foods, automotive and electronics."

About Enso Detego GmbH

Enso Detego provides intelligent RFID solutions, expert technology consulting and successful project implementation based on proven software products.

The product **detego®** SUITE ensures rapid and effective implementation of RFID projects. Standardized processes in the areas of production, distribution and retail are supported by high-quality and market-proven RFID solution modules. The flexibility of scalable modules allows the adjustment to strategic requirements and the integration with enterprise business processes.

Visibility in the supply chain, efficient replenishment based on maximum inventory accuracy, acceleration and preventing of mistakes in stock taking processes, anti-theft and anti-counterfeiting are some examples of themes Enso Detego works on. As developer of a powerful RFID Middleware and supported solutions modules the company aims at creating added value for its customers and partners.

The products and services address the industries fashion, automotive, food and electronics. Especially in the fashion segment a leading market position could be achieved.
